Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	29 September 2026
Team ID	SWTID-2026-7788
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Laptop Request Submission	Request through ServiceNow Service Catalog form Select a laptop from the approved standard models list Auto-populate requester, department and cost center from user profile
FR-2	Eligibility Check & Approval Routing	Validate that the model is standard and within budget Auto-approve eligible standard requests Route exceptions to line manager / IT procurement approval
FR-3	Automated Order Fulfillment (Flow Designer)	Create catalog task and purchase request automatically Check stock and reserve available inventory Assign order to procurement or asset team
FR-4	Notifications & Status Tracking	Email / portal notification on submission, approval, dispatch and delivery Requester tracks order status in the Service Portal
FR-5	Asset Registration & Closure	Create asset record in CMDB on receipt Assign asset to requester and close the request
FR-6	Reporting & Audit	Dashboard for order turnaround time and volumes Log every flow execution and approval for audit

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	Simple catalog form with a pre-filtered standard laptop list; request can be raised in under 2 minutes without IT help.
NFR-2	**Security**	Role-based access for requesters, approvers and procurement; approvals and asset data audited; data protected per company policy.
NFR-3	**Reliability**	Flow errors are caught and retried, with failure alerts to the IT team so no order is lost or duplicated.
NFR-4	**Performance**	Eligible standard requests are approved and fulfillment tasks created within minutes of

		submission.
NFR-5	**Availability**	Available with the ServiceNow platform (target 99.5%+ uptime), 24x7 for request submission.
NFR-6	**Scalability**	Flow handles growth in order volume and new laptop models or departments through configuration, not redesign.
